

Stand Sold Separately

NEW!

The Mark VII AirFeed is a high-speed folding machine that is capable of folding up to 35,000 sheets per hour...that's over 583 sheets per minute. Has manual paper guide and skew adjustments to get the job set right where it needs to be. Comes with removable cartridges for perf and/or scoring. The LED counter keeps track of pages folded. Handles coated, laser, and copier paper types. Has variable speed control and a variable speed conveyor, independent of the fold rollers.

The AirFeed system is equipped with fine tuning adjustments for pressure and vacuum to meet any job requirement.

- Great for sensitive paper stock including gloss, etc.
- Variable speed for ultimate control
- Manual adjust sheet separator
- Adjustable fold rollers
- Continuous bottom feed system
- Adjustable roller spacing to paper thickness

Technical Data

Min. Paper Size	3.5" x 4.25"
Max. Paper Size	14" x 20"
Paper Weights	16 lb. bond - 80 lb. index
Speed	up to 35,000 sheets per hour
Fold Types	Letter, Half, Z-Fold, Double-Parallel, Engineering, and Church Fold
Feed Table Capacity	300 sheets of 20-lb. bond continuous feed
Speed of pump (RPM)	1740
Flow (SCFM @ 0 PSIG)	18
HP of pump	1.7
Voltage Requirements (pump)	115V 20 Amp / NEMA 5-20R
Width (in) - Assembled	50.5"
Depth (in) - Assembled	23.5"
Height (in) - Assembled	19.25"
Weight (lb)	238 lbs.
