**SAME IDENTICAL FORMULA!**  
**UPDATED LOOK - NEW NAME**

NET WT. 9.5 oz.

NET WT. 9.5 oz.

# ONE PRODUCT THAT PERFORMS THE JOB OF TWO!

We proudly present the newest member of our **BLACK LABEL SERIES** -

### **SP295 T<sup>1</sup> TFE Dry Coating Lubricant and Release Agent**

20 oz. can, 12 oz. net wt.

An excellent dry coating lubricant for use on saw blades, router bits, drill bits, shapers, planers, etc. Reduces friction, inhibits resin build-up and prolongs tool life.

- Fortified with TFE
- Repels oil & water
- Paintable - will not affect wood finish

The entire industrial line of products are in compliance with the evolving regulatory bodies for V.O.C. compliancy. These formulas have been developed, tested and refined to deliver the best products to the market. While they outperform the competition - they may be obtained at a substantial cost savings.

NET WT. 12 oz.
